

Refer a Friend App – Getting Started (For Professionals)

1. Create Your Account

Sign up as a Professional — to get discovered through trusted networks.
It's completely free to use — no fees, no commissions, no memberships.

2. Turn On Notifications

- New connections
- Potential customer interest
- *(Only the good stuff, no spam.)*

3. Complete Your Profile

Add a photo and short bio so people know who you are. This builds trust and helps customers feel confident reaching out.

4. Share with Past Clients

Let people who already trust your work help grow your network.

Share your personal link with a message like:

"I've recently joined Refer a Friend App, where clients can recommend professionals they trust. If you've been happy with my work, I'd appreciate you adding me to your trusted pros."

5. Get Discovered Through Friends

When someone adds you, their friends can see and recommend you — turning one connection into multiple opportunities.

6. Build Your Network

Keep growing:

- Deliver great work
- Encourage happy clients to add you

The Idea

Instead of paying for leads or competing for attention, you're discovered through people who already trust your work — and that trust spreads through their network.
